PARTE 2

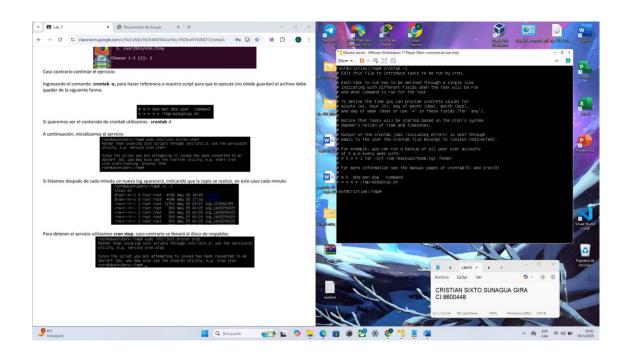

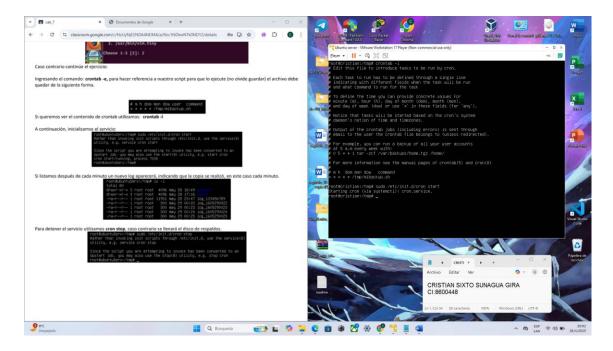

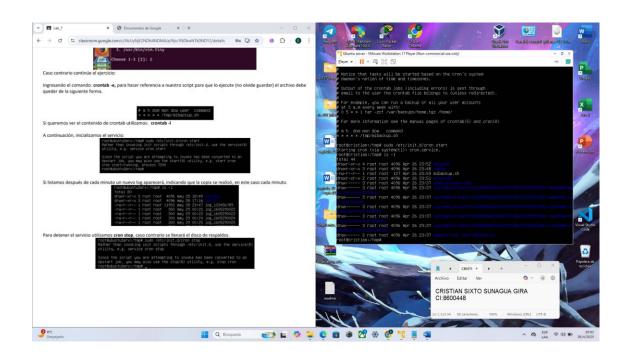

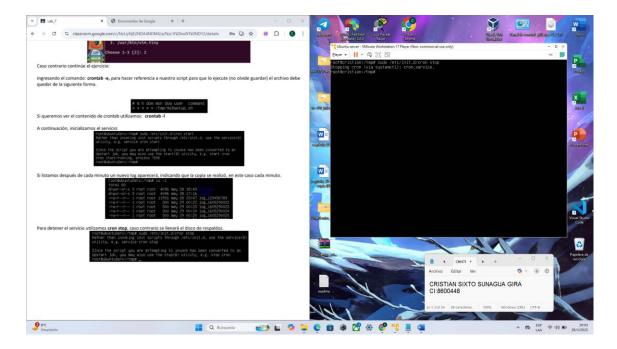

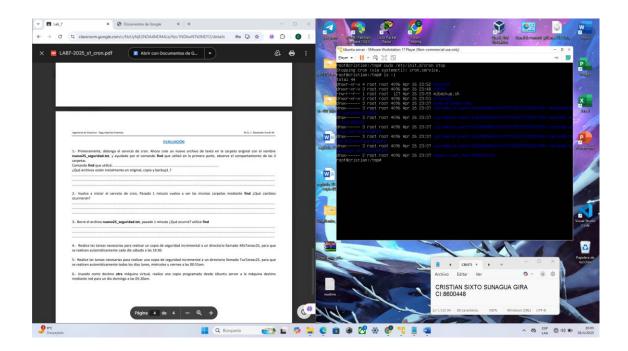

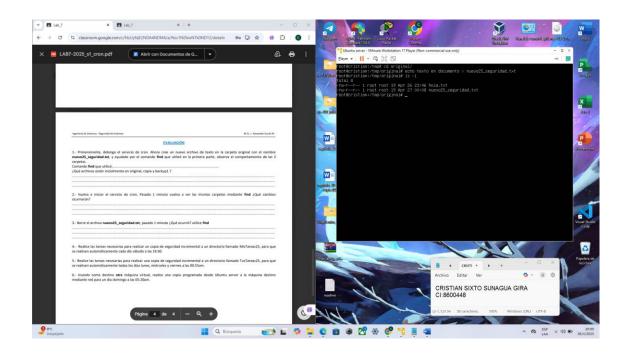

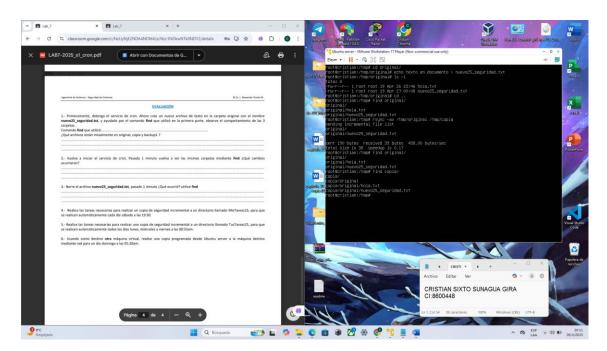

EVALUACION

1. Comando find original

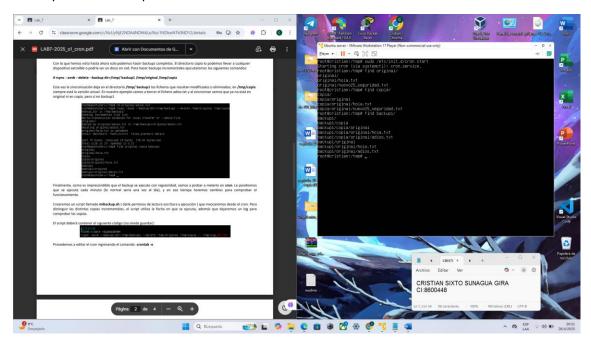

¿Qué archivos están inicialmente en original, copia y backup1?:

- original: hola.txt nuevo25_seguridad.txt
- copia: original/hola.txt original/nuevo25_seguridad.txt
- backup1
- copa/orignal/hola.txt/adios.txt

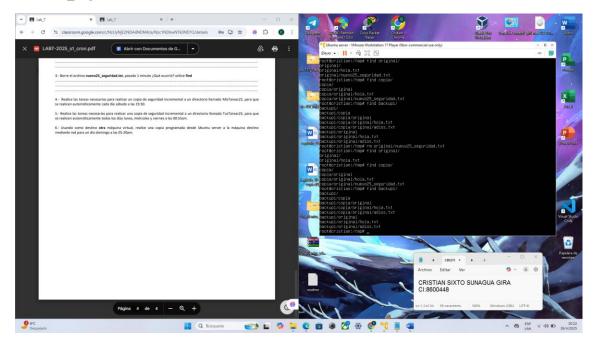

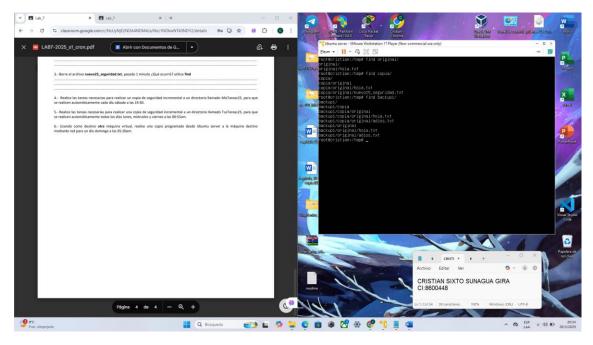

2. No paso nada aun pasando el minuto

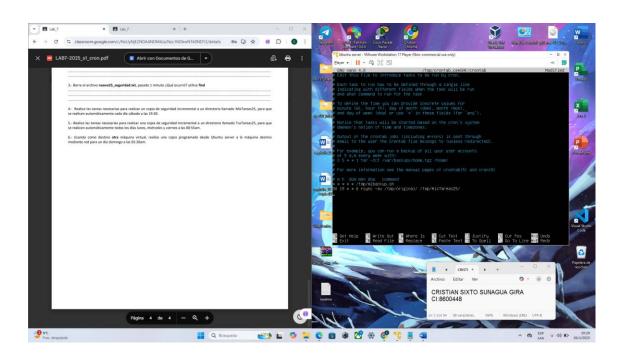

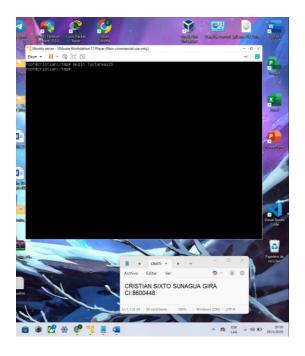

3. Despues de eliminar y pasando el minuto se pudo recuperar el documento de nuevo25_seguridad.txt

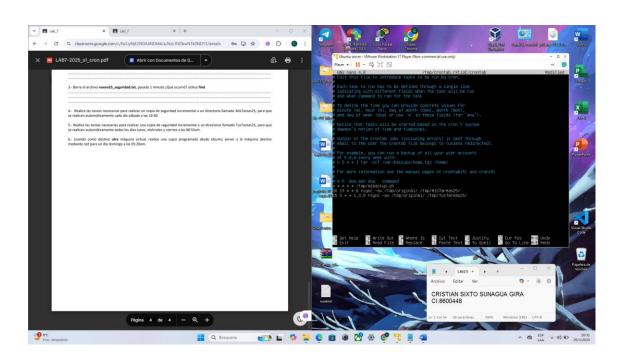

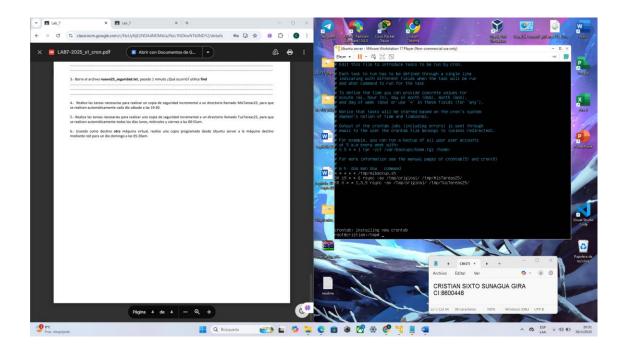

4.

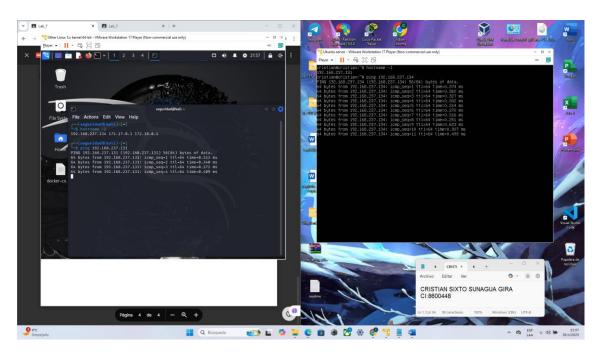

5.

6. Verificamos si tenemos ping entre ambas maquinas

Instalamos ssh en la maquina destino(kali) y entramos con ssh desde la maquina cliente (Ubuntu_server)
